

4BS Playgrounds management

- R1 - Connect playground's lights (using a contactor)
- R2 - Connect an indication device (Siren, Alarm)
- R3 - Connect a switch to activate/deactivate function
- K1 - Connect a switch to start function

Workflow

Short press on switch (K1), will turn on output R1 for an hour. 10 minutes before time's over, R2 (Indication) will turn on for 10 seconds, will notify on end of time.

Another press on switch (K1), will extend time window by 1 hour.

Set schedules using the App to set activation time for the workflow, R3 on - function disabled

Notice: Schedules are interchangeable

Connect switch through relay:
Connect switch's C wire to Relay's C wire
Connect Drycontact's C wire to Relay's NO wire
